Education

B.E. Computer Engineering

Aug 2023 – June 2027

Dr. D. Y. Patil Institute of Technology, Pune

CGPA: 9.74/10

HSC (SGJC Korhale, Shirdi)

(2023) **84.17%**

SSC (CSV Kolpewadi)

(2021) **84.20%**

Experience

Technical Head, Sports Club – DIT [\(Link\)](#)

Dec 2024 - Present

- Built and managed the **Parakram** website for registrations, jersey orders, and student data, serving **1500+ active users**.
- Implemented a **QR-based payment system** with an **admin panel** for payment verification and order management.
- Automated event tracking and data handling, significantly reducing manual coordination.

Skills

Programming Languages: C++, Kotlin, Java, Python, JavaScript

Web Development: HTML, CSS, React.js

Android Development: Jetpack Compose, MVVM, Retrofit, Android Jetpack Libraries

Databases: SQL, MySQL, MongoDB, Firebase, Room Database

Backend Development: Node.js, Express.js, Next.js, Ktor

Computer Science Core: Data Structures & Algorithms (DSA), OOP, DBMS, CN, OS

Version Control & Build Tools: Git, GitHub, Gradle

Projects

Civic Assist Platform [\(GitHub\)](#)

[\(🔗 Live Demo\)](#)

- Built a full-stack civic issue reporting web platform with image upload, geolocation, and community-driven prioritization (upvotes).
- Developed a responsive frontend + admin dashboard with real-time tracking, heatmaps for issue density, and leaderboard for user engagement.
- Integrated Leaflet maps for visualization, Cloudinary for media storage, and real-time notifications.
- Implemented scalable REST APIs and added ML-based fake report detection to filter spam.
- Added multilingual support and a chatbot to improve accessibility and user interaction.
- **Tech stack: React.js, Node.js, Next.js, Express.js, MongoDB, Firebase, Cloudinary, Leaflet, Machine Learning**

Parakram Website [\(GitHub\)](#)

[\(🔗 Live Demo\)](#)

- Built a full-stack sports event management platform serving **1500+ users** with secure **Google OAuth** authentication.
- Implemented a **QR-based payment system** with admin-side payment verification and order management.
- Added jersey validation, secret codes, and **anti-cheating logic** for fair registrations.
- Designed backend workflows for payments, verification, and event data consistency.
- Managed data using MongoDB Atlas and deployed the production-ready application on Vercel with a custom domain.
- **Tech Stack: HTML, CSS, React.js, Node.js, MongoDB Atlas, Vercel, Email Services, Framer Motion**

Movies House App

[\(GitHub\)](#)

- Movie discovery app built with Jetpack Compose and MVVM.
- Integrated TMDB API using Retrofit & Paging 3 and added offline Room DB.
- Built detailed UI screens with cast info & recommendations.
- **Tech stack: Kotlin (Jetpack Compose), Retrofit, Paging 3, Room, Hilt, TMDB API, Navigation Compose.**

Certifications & Achievements

- **1800+ LeetCode Rating | 650+ DSA problems solved | Achieved a 290-day continuous streak**
- **2nd Runner-up, National-Level 48-Hour Hackathon – Amity University, Mumbai**
- **Secured 1st place among 550+ teams in a college-level project competition for developing the Civic Assist Platform.**
- **Secured 10/10 SGPA (Semester 1) and Rank 1 in College**
- The Complete Android 14 & Kotlin Development Masterclass
- Apna College Full Stack Web Development
- PW Decode DSA June 2024
